no names were monitioned. The letter declared that if the qucen was restored abe would be a dead woman in twenty-four hours.

It further says that Hawaii weeld have no monarchy; that neither the would be allowed to reign; that the supporters of the provisional government would fight and face death if need be rather than submit to the restoration of the monarchy.

Another letter is of a like spirited tenor. It breathes a spirit of determination to assist the administration policy to the last and to fight to death. The recipient of these letters, who is throughly informed regarding liawaiian affairs and disposed to take a conservative view of things, says that they unquestionably reflect public sentiment in Inoniutu.
